

OPTIWAY

Your Route to Smart and Sustainable Transportation

TRANSPORTATION'S ROLE IN CLIMATE CHANGE

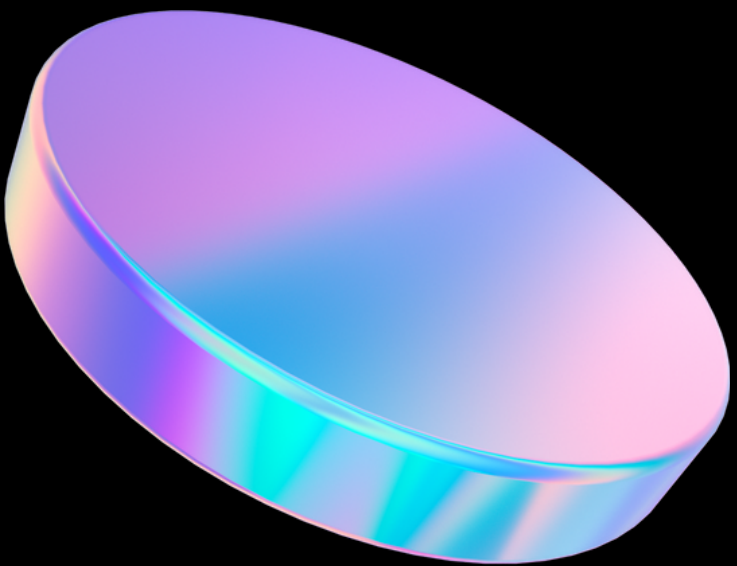

CO₂ EMISSIONS ≈ 868,480 KG (ONLY IN DELHI NCR)

UPTO 10% REDUCTION IN CO₂ EMISSIONS

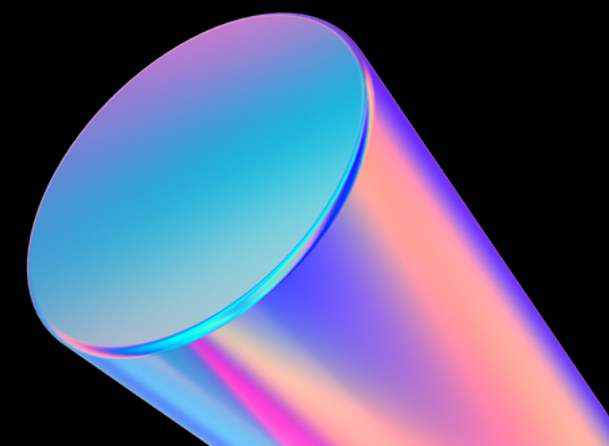

SOLUTIONS

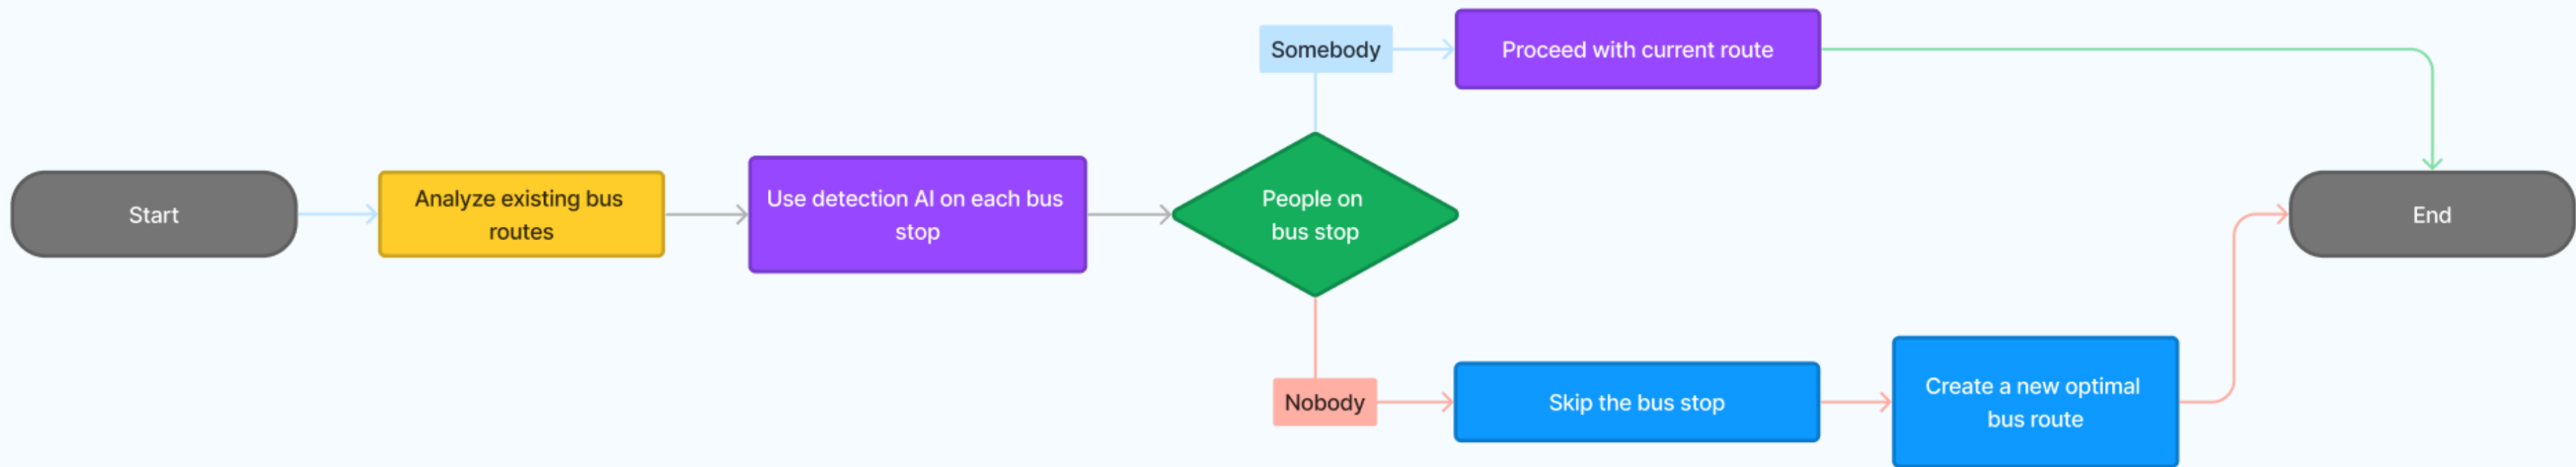

TRANSFORMING URBAN MOBILITY

Optiway's Adaptive Bus Route System reduces carbon emissions by optimizing bus routes, minimizing bus distance and operating where needed, eliminating unnecessary trips to empty bus stands.

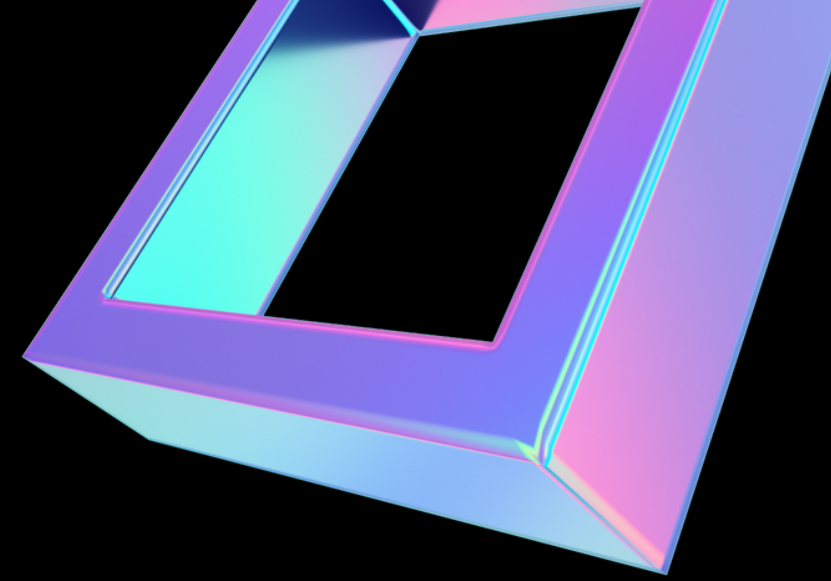

HOW DOES IT WORK?

Tech Stack

NEXTJS 13

YOLO V7

TAILWIND CSS

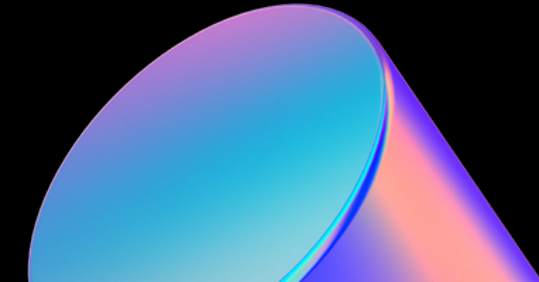

GOOGLE MAPS API

BUSINESS MODEL

Existing B2B bus services can use our service to optimize their bus routes. We will charge them 1% of their total ticket sales.

Adding a ticketing system on every bus stop to automate the bus ticketing system (similar to DMRC).

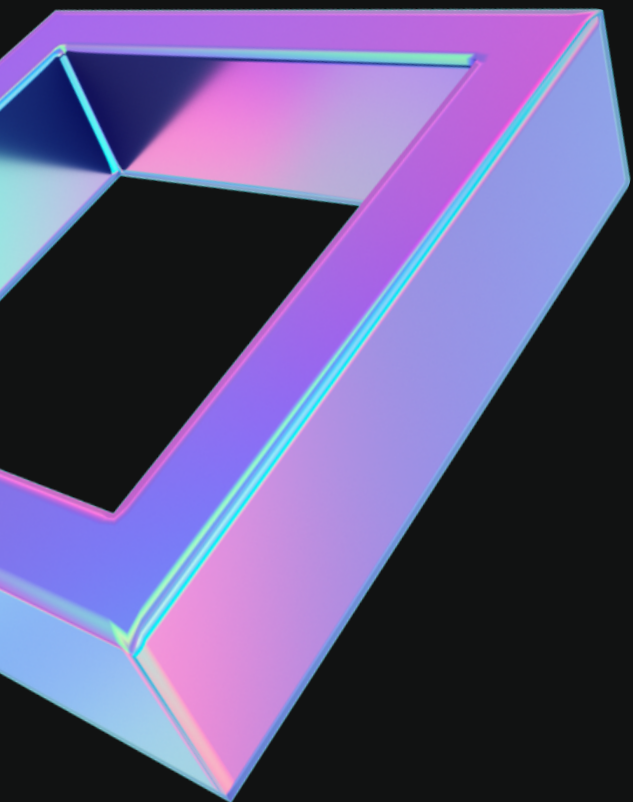

FUTURE PLANS

Automated ticket vending machines at bus stops

Expand to other metropolitan cities.

Some funds generated will be used for reforestation and other renewable energy projects.

THANK YOU

TEAM INVICTUS
